

Combined Weld

CAPABILITY STATEMENT

About Us

Combined Weld is a reputable steel fabrication company offering turnkey solutions to clients in the engineering fabrication, construction and mining industries. With our expertise in labour hire, fabrication and site work, we provide comprehensive services tailored to meet the unique requirements of each project.

**Our commitment to quality, safety,
and client satisfaction sets us apart
as a reliable partner for all your steel
fabrication needs.**

Empower Your
PROJECTS

Quality Assurance

At Combined Weld, we prioritize quality at every stage of our operations. Quality Assurance is embedded in our culture, and we are committed to delivering exceptional quality in every project we undertake.

Our Services

Whether you require skilled labour, steel fabrication, or on-site services, Combined Weld is your trusted partner for engineering excellence and success.

Labour Hire

We specialize in supplying skilled labour to meet the diverse requirements of our clients. Since our establishment in 2020, we have achieved remarkable success in providing highly competent and experienced personnel to workshops and mine sites.

Our skilled labour force includes:

- Boilermakers
- Coded Welders
- Pipe Fitters
- Mechanical Fitters
- Riggers
- Trade Assistants

We ensure that our labour force possesses the necessary qualifications, certifications, and industry knowledge to deliver exceptional results.

Steel Fabrication

At Combined Weld, our advanced facility in Henderson is solely devoted to structural fabrication and the manufacturing of pressure equipment. Our team of highly motivated and skilled professionals collaborates closely with our clients to deliver tailor-made engineering solutions that prioritize satisfaction.

Our fabrication capabilities include:

- 2 x 5T overhead bridge cranes;
- Fully equipped enclosed workshop spanning 1000 sqm, with an additional 2000 sqm outdoor laydown area;
- Dedicated fabrication areas for mild steel, stainless steel, and exotic materials.

With a wide range of processing equipment and a multidisciplinary workforce, we have the capacity to handle projects of all sizes and complexities, ensuring timely and efficient project execution.

Onsite Services

Our combined labour hire and fabrication capabilities enable Combined Weld to provide comprehensive on-site solutions, emphasizing safety, reliability and flexibility. Whether it's major or minor works, we have the experience and expertise to deliver projects on time and within budget.

Our site services specialize in:

- Industrial maintenance and capital works;
- Fixed plant and mobile equipment maintenance;
- Modular shutdown execution and general mine site maintenance.

At Combined Weld, we utilize cutting-edge approaches and construction methodologies to enhance productivity and efficiency across all projects, ensuring optimal outcomes for our clients.
